

SG Supreme, Fireburst

Gibson is excited to announce the return of the SG™ Supreme. With a refreshed feature set, it is bound to overshadow everything else in sight and be one of the most exciting new releases of the year. It features a beautiful AAA-figured maple top on a mahogany body. The mahogany neck has an ebony fretboard with a compound radius, 24 medium jumbo frets, and Super Split Block mother-of-pearl inlays. The headstock is adorned with a striking new mother-of-pearl "Chandelier Inlay" inspired by a design from the 1940s that was discovered in the Gibson archives. The Burstbucker Pro and Burstbucker Pro + pickups are paired with push/pull volume controls for coil tapping, along with individual tone controls. The three beautiful finishes are elegantly highlighted with gold hardware, making this not only a great-sounding and highly flexible instrument but also an exceptionally beautiful-looking modern rock machine. A hardshell case is also included.

Specs

Body	
Shape	SG Modern
